From uphill to downtown, the Allegro Bus is equipped to make all the right moves.

There's an art to engineering a motorhome, as elegantly demonstrated in the Allegro Bus' custom-built PowerGlide chassis. Designed to integrate precisely with the coach body, the PowerGlide earns superior marks in the industry for its engineering, construction, and durability. It also gets rave reviews from owners for its quiet ride, capable handling, and ability to tow heavy loads without complaint. Bob Tiffin sums it up best: "Nothing rides and drives like a PowerGlide."

Among its superior features:

MULTIPLEX WIRING

The electrical systems of most Class A chassis are incredibly complex, requiring hundreds of wires. Not so in the PowerGlide. Our innovative chassis design employs a multiplex system that requires significantly less wiring. Fewer wires. Fewer problems.

EASIER SERVICE

Having the Tiffin name on the Bus from top to bottom means one-stop service for coach and chassis. It doesn't get easier than that.

SUPERIOR WARRANTY

The entire coach is covered by Tiffin's Five-Star Warranty, considered the best in the industry. The PowerGlide chassis carries an additional warranty backed by Tiffin: Three years or 50,000 miles against defects in materials and workmanship. Five years for engine and transmission.

EXTRA STORAGE

As a diesel pusher, the engine is at the rear of the coach. This chassis design opens up room for more under-coach storage and a more spacious driver's cab.

A FAMILY BUSINESS BUILT AROUND YOURS.
